Bangalore, Karnataka, India

Experienced Full Stack Engineer proficient in React.js, Node.js, Express, MongoDB, HTML, CSS, and JavaScript. Skilled in crafting clean, scalable code to meet business objectives. Adept at problem-solving, code reviews, and data integration. Eager to leverage expertise in a challenging role for continuous growth and development.

EXPERIENCE

LEAD FULL STACK ENGINEER

Lentra | Bangalore July/2023 - Present

- Demonstrated exceptional leadership and mentoring skills, fostering innovation and continuous improvement within technical teams.
- Empowered a small team, playing a pivotal role in designing and developing a full-stack product, ensuring alignment with product requirements.

SOFTWARE ENGINEER

Lentra | Bangalore Nov/2022 – July/2023

- Demonstrated expertise in JavaScript, Node.js, React.js, SQL, and NoSQL databases, pivotal in creating high-performance and scalable web applications.
- Ensured thorough project documentation, resulting in a 70% improvement in knowledge transfer efficiency and team knowledge base enrichment.

FREELANCE WEB DEVELOPER

Ranchi May/2020 – Jan /2022

- **Client-Centric Development**: Collaborated with inter-college clients to develop tailored websites for online admissions and maintenance, focusing on meeting client requirements and enhancing user experience.
- **End-to-End Project Execution**: Conducted consultations, designed, and developed customized websites, implementing features to streamline processes and ensure functionality. Provided ongoing support and effective communication to meet project deadlines.

WEB DESIGNER

COMPUTER Ed | Ranchi July2019 – April/2020

- Proficient in **Frontend Development** using HTML, CSS, and JavaScript, ensuring the delivery of high-quality and visually appealing webpages within set deadlines.
- Designed responsive websites for diverse sectors including hotels, real estate, and colleges, emphasizing user-centric design principles to enhance user experience across all devices.

EDUCATION

Full Time - FULL STACK WEB DEVELOPMENT
Masai School
Feb/2022 – Oct/2022

B.Tech in Electrical and Electronics Engineering
National Institute of Science and Technology
Aug/2015 – Apr/2019

SKILLS

Frontend
HTML5, CSS3, JavaScript, React.js, Redux, AJAX, Fetch API

Backend
Node.js, Express.js, RESTful APIs, Database Management, Authentication, Error Handling, Deployment

Database
MongoDB, PostgreSQL

Other
Testing, Linux, Docker, Git, Agile Methodologies, AWS

Soft Skills
Collaborative, Time Management, Task Management, Problem-solving Skills, Communication Skills

PROJECTS

EWS

- Developed RESTful APIs and React UI components for EWS project's User Access Management (UAM) section.
- Implemented functionalities for creating, deleting, and updating users, user groups, roles, and features within the UAM section.
- Enabled role-based feature assignments to user groups, enhancing access control capabilities within the system.

Tech Stack: JavaScript, Node.js, React.js, Redux, Azure, Redshift, MongoDB, PostgreSQL

Data Capture

- Developed and continuously maintained monitoring dashboards using Node.js API and React for real-time insights into data flows.
- Implemented features to track total extracted count and S3 sink count, providing a comprehensive overview of daily pipeline runs.
- Ensured dashboard functionality aligned with monitoring requirements, enabling efficient tracking and analysis of data movements from source to destination.

Tech Stack: JavaScript, Node.js, React.js, Redux, AWS, Docker PostgreSQL
